SECTION 4: First aid measures

4.1. Description of first aid measures

General information	Get medical attention if any discomfort continues. Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.		
Inhalation	If spray/mist has been inhaled, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.		
Ingestion	Contact physician if larger quantity has been consumed. Rinse mouth thoroughly with water.		
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water.		
Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Do not rub eye.		
4.2. Most important symptoms and effects, both acute and delayed			
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.		
Inhalation	May cause an asthma-like shortness of breath. Vapours may cause headache, fatigue, dizziness and nausea.		
Ingestion	May cause discomfort if swallowed. May cause stomach pain or vomiting. May cause nausea, headache, dizziness and intoxication.		

Skin contact	Prolonged or repeated contact with skin may cause irritation, redness and dermatitis.		
Eye contact	May cause temporary eye irritation.
